

NO. 1 STEEL DRYERS

For any paper width (11+ meters/433+ inches),
paper grade and machine speed

// the lightest // the stiffest // the most sustainable

// homogenous temperature profile

// improved drying capacity

// wider paper in existing machine frame

KRAFFT
WALZEN

“... over the past years, KRAFFT Walzen has delivered around 300 #KSD – KRAFFT Steel Dryers direct to paper mills and OEMs in the North American market.

We can fulfill all demands in respect of dimensions (433+” face length), speed (6.600+ fps) and operation pressure (200+ psi). This allows us to support projects on a short term notice and have the full competence for large volume projects with big dimensions and volumes.

We have a strong believe, that our #KSD with its unique and proven design has set the benchmark for paper drying “

CKS – KSD – KRAFFT Steel Dryer
